CALIFORNIA STATE SCIENCE FAIR
2015 PROJECT SUMMARY

Name(s)

Macy Matsukawa; Edward Segura; Esmeralda Suarez

Project Number

35664

Project Title

The Effect of Ascorbic Acid on Alcohol Exposed Bovine Biological Catalysts

Preliminary

Abstract

Objectives/Goals

Submitted by Partner

Summary Statement

To determine if different durations of ascorbic acid exposure will affect a liver's enzymatic acitivty after it has been exposed to alochol.
