### Name(s)
Erynn Donlon; Desiree Moore

### Project Number
22168

### Project Title
Fear Factor

### Abstract
Our goal is to reduce the fear of our subjects by exposing them to their fear of arachnophobia.

### Objectives/Goals
Our goal is to reduce the fear of our subjects by exposing them to their fear of arachnophobia.

### Methods/Materials
- A video of spiders
- A book full with pictures of spiders.
- A dead spider in clear jar.
- Live spiders

### Results
The results of our experiment were that everyone improved from their fear.

### Conclusions/Discussion
After testing we were happy to find out the results. We had helped our subjects with their fears and we felt good about helping them and making a difference in the world.

### Summary Statement
Our project is about testing certain people with their fear of spiders and exposing them to the arachnids.

### Help Received
We received help from our counselor, Mrs. Barber and our vice principal, Mrs. Green for information regarding phobias. Also we received help from the Donlon and Moore families for taking us to get supplies.
