

**CALIFORNIA STATE SCIENCE FAIR  
2002 PROJECT SUMMARY**

<b>Name(s)</b> <b>Linda J. Lang</b>	<b>Project Number</b>  22328
<b>Project Title</b> <b>The Contents of Barn Owl Pellets in Urban Compared to Rural Areas</b>	
<p style="text-align: center;"><b>Abstract</b></p> <p><b>Objectives/Goals</b> My goal was to make a very interesting and neatly done report.</p> <p><b>Methods/Materials</b> The materials that were used are: rubber gloves, painter's mask, field data, books on identifying rodent skulls and insects, magnify glass, microscope, trays, glass case, insect pins, plastic bags, paper, pen, pencil, porcelain pans, forceps, toothbrush, bottle of bleach, beakers-500ml and paper towels.</p> <p><b>Results</b> My results are that I found a more of a variety of rodents in rural areas and a less of a different variety in urban areas.</p> <p><b>Conclusions/Discussion</b> My results did agree with my hypothesis, because I asked if there was a change in rodent species in urban and rural areas, and the answer to that is yes.</p>	
<b>Summary Statement</b> My project is about the contents of barn owl pellets compared to different areas.	
<b>Help Received</b> My father helped my to determine the species name of the rodents, that I found.
