|--|------------------------------------|
| Name(s) Tara L. Cole | Project Number 35682 |
| Project Title Can You Pass an Eighth Grade Science Quiz? | |
| <p style="text-align: center;">Abstract</p> <p>Objectives/Goals To find out if adults with different levels of education could pass an 8th grade science quiz with a score of 70% or better.</p> <p>Methods/Materials I used a basic 8th grade science quiz I found online</p> <p>Results Adults with higher levels of education generally did better on the quiz</p> <p>Conclusions/Discussion Not one person was able to score 100% on the quiz. It was very difficult to find adults that were willing to take the quiz. I found out that even adults are nervous to take a pop quiz. Many were actually embarrassed that they did not pass.</p> | |
| Summary Statement Did higher level of education make a difference in passing an 8th grade science quiz | |
| Help Received Grandmother helped me with the placement of materials on the board | |
